KNEES AND FEET (Prayer and Action): Ask the Holy Spirit to guide you to a change of mind and action.

It's good for us to take time to consider who God is and what He has done, both in scripture and in our life. So, what comes to your mind when you think about who God is? What do you recall, either from scripture or experience, when you consider what God has done?

How could those realizations change your outlook on life? How could your Theology direct your ethics/actions each day?
