**CAMA (Compassion & Mercy Associates) Education matters.**  
That's why we are excited about new education initiatives.

**Brand New Christian School in West Africa**

In a county in West Africa, we are partnering with aXcess workers and the local church to build a new school. Currently, students meet outside under a shelter because they outgrew the Sunday school rooms. Once the classrooms are built, it will be the only Christian school in the region and will meet a critical need for education in this improvised nation.

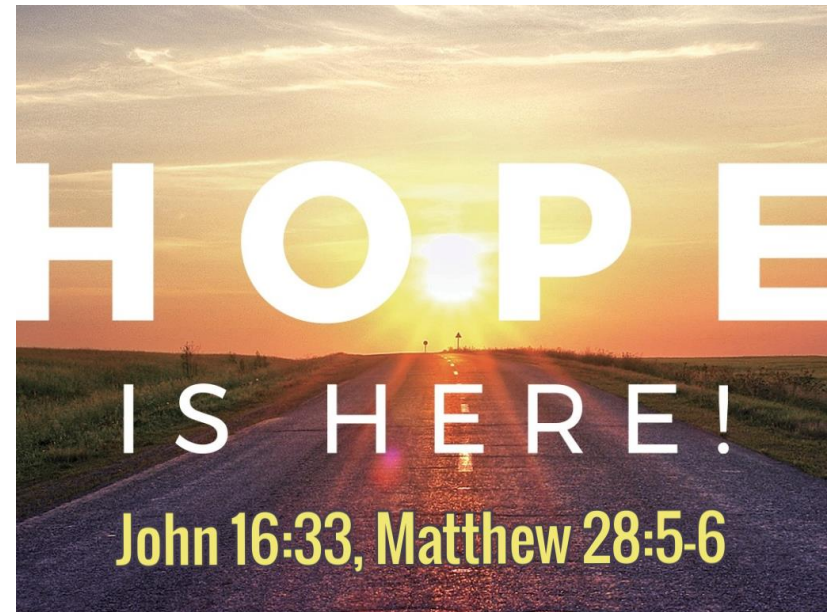

**Rohingya Refugee Literacy Program**

Another CAMA worker in Southeast Asia has spent most of the pandemic training 14 refugee teachers who are teaching Rohingya children. In the coming months, they hope to make use of a program where refugee students will use tablets to begin a basic literacy program. No internet connection is needed, which is key. Giving Rohingya refugees an opportunity to learn to read and write will open enormous opportunities for this marginalized community.

**Tutoring Program in an Informal Settlement**

A tutoring program began this year for 27 students living in an informal settlement in Senegal. The main goal of the program is to help fifth and sixth graders pass a crucial government exam so that they can move on to secondary school. The results received in early August revealed that 24 of the students passed the exam and will continue with their education. CAMA will be there to cheer them on!

As the pandemic continues, access to education matters more than ever. Thank you for how you stand with us in these new initiatives and cheer on disadvantaged children.
